

**Fabricated, Packaged,
and Delivered to the Jobsite.**

The ISAT Rapid Rack System

When it comes to hangers and supports, getting the right support to the right location on the jobsite is usually half the battle. ISAT's Rapid Rack System is designed to streamline this process and greatly reduce the costs associated with traditional material handling. Each rack is loaded to precisely match the installation sequence (last rack on, first rack off) and delivered "Just in Time" to meet the most aggressive construction schedules.

Key Advantages Include:

- *Streamlines Material Handling Costs*
- *Significantly Enhances Field Efficiency and Safety*
- *Racks Tagged and Loaded to Match Installation Sequence*
- *Jobsite Friendly Design Allows for Ease of Transfer on Most Elevators or Pickup and Dropoff on the Deck*
- *Racks Tagged to Match Layout Drawings and Can Include QR Coding System (QRXpert App)*
